The Best Investment Value for Your Web Site's Online Promotion Plan

Real Estate Services are among the most competitive in the Search Engine Game, and like any networking effort, adding as many links to your site as possible will improve your success. In November 2003, local Real Estate Service providers who had enjoyed prominent Search Engine coverage fell victim to Google's Florida Algorithm. Their prominent spots were given to powerful National directories, transferring hundreds of visitors to irrelevant national sites including Weather Directories. Local businesses continue to pour hundreds of dollars each month into Google Adwords promotion ... but Google continues to favor directories over local sites. **The 208RealEstate family of Directories is a powerful new tool for Idaho Real Estate Services.** We link to your site through 23 directory sites visible through Google and other major search engines with the widest possible array of Key Phrases.

Our 23 sites present local Idaho information to online Idaho Area Real Estate searchers. Our well organized content pulls visitors through extremely specific regional Key phrases such as Idaho cities, resorts, landmarks, and counties. Our specialized regional sites feature Idaho Regional information at a level of detail that National directories cannot hope to duplicate, complete with a combination of Aerial photos and snapshots. Like every family, we continue to grow and your links will be added on each new site we create ... at no added charge to you!

Our service provides a link to your site from each of these 23 sites for only \$49.95 per year ...
that's just \$2.17 annually per site link!
